

## Some fun ways to connect, celebrate success & ideate on the future.

We have a lot more exercises to help you, so if you're curious, let us know. We'd love to help your team!

### Connect

[Play a round or two of Moviedle](#), the Daily Guess That Movie game. How to play? Watch a one-second version of the entire movie (no pausing!) Guess the title or hit skip if you don't know it. If incorrect, you'll get to see a longer & slower version of the movie. You get six tries in total per day. In between, you'll see what genres of movies appeal to your co-workers and get to know them a little bit better.

[Two truths and a lie](#). How well do your teammates know you, either personally or your work self? This fun game can help people learn a little more about one another and have some fun.

[Career decoder quiz](#). Ask each of your team members to complete the career decoder quiz and then share your answers with one another. You'll find out your Professional Personas: builder, educator, mentor, optimizer, researcher, super-connector, visionary, or warrior.

### Celebrate

[Build a team Spotify playlist](#). Co-create a soundtrack for the past year that reflects your team members and the songs that bring memories to life!

**Co-create a booklet of inspiring quotes**, with each team member sharing one or two of their favorites. You can use PowerPoint or the [newsletter template in Canva](#).

**Designate a real-time reflection of the past year**. Each person goes around to share their one proudest work accomplishment, one thing they learned at work this year, one challenge they overcame, and something they're hoping for in the coming year. (Sometimes this is nice to do over lunch, whether in person or remotely!)

### Plan for the future

[Create a team or individual vision board](#). Oftentimes we don't reserve enough time for ideating on what we want the future to be. Dedicate an hour or two for team vision boarding. Whether team members do this individually or you co-create a team vision board, this will spark ideas for your new year strategy and get you out of the day-to-day.

[Build your year-long roadmap](#). Take the time to map out your projects for the next year and the tasks that need to get done each month to deliver on that project or goal. Use this as your source of truth as your team enters the new year.
